Robotics and Technology
2nd Trimester
Summative #1
6th A, B & C

Name: _____ Date: _____ Group: 6° A B C
Teacher: Porfirio Rios Score: ____ / 40pts
Robotics Word Hunt Vocabulary Report

Criteria	9	7	5	2
Robotics vocabulary completion	Completes all 10 assigned robotics vocabulary entries.	Completes 8-9 assigned robotics vocabulary entries.	Completes 5-7 assigned robotics vocabulary entries.	Completes 1-4 entries, or most entries are missing.
Definitions	Definitions are accurate, student-friendly, and clearly match the words.	Most definitions are accurate, with only one or two needing more clarity or detail.	Some definitions are too short, unclear, not well selected, or partly incorrect.	Definitions are mostly missing, incorrect, or do not match the words.
Images	Each completed word has a relevant saved image that helps explain the word.	Most words have relevant images, with only one or two weak or missing images.	Some images are missing, unclear, or only loosely connected to the words.	Images are mostly missing, unrelated, or do not help show understanding.
Examples and report	Each completed word has one meaningful example sentence, and the Word Hunt report is submitted/readable.	Most words have one useful example sentence, with only minor wording or submission issues.	Some examples are missing, repeated, too general, or the report is hard to check.	Examples are mostly missing or the Word Hunt report is incomplete/not submitted.
Criteria	4	3	2	0
Punctuality , Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password.	Files were delivered on time, with only one minor readiness or resource issue.	Files were submitted, but there was a noticeable lateness, readiness, or resource problem.	Files were not delivered on time to Google Classroom, the student was not prepared to work, or did not have the necessary resources, e.g. computer, charger, email, and password.

 Academia Internacional David Robotics and Technology 2nd Trimester Summative #3 6th A, B & C				
Name: _____		Date: _____		Group: 6° A B C
Teacher: Porfirio Rios		Score: ____ / 40pts		
mBot Route Map and Command Plan				
Criteria	9	7	5	2
Route map	Draws a clear route map with a start, finish, and at least 4 movement steps.	Draws a usable route map with start, finish, and 4 movement steps, but one detail could be clearer.	Draws a route map, but one required part or movement step is missing or unclear.	Route map is missing, too simple, or does not show a usable robot path.
Command sequence	Writes a logical command sequence that matches the route map.	Writes a command sequence that mostly matches the route map, with one small missing or unclear command.	Writes a command sequence, but some commands are missing, out of order, or unclear.	Command sequence is missing or does not match the route map.
Turns and stops	Labels turns, stops, and key movement points clearly on the map or plan.	Labels most turns, stops, and movement points clearly, with one minor label missing or unclear.	Labels some turns or stops, but important movement points are missing.	Turns and stops are mostly missing or not understandable.
Realistic planning	Plan is realistic for the mBot and includes enough detail for testing in class.	Plan is mostly realistic for the mBot and gives enough detail for testing with minor teacher support.	Plan may work but needs teacher interpretation or more detail before testing.	Plan is too vague, too large, or not realistic for class testing.
Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password.	Files were delivered on time, with only one minor readiness or resource issue.	Files were submitted, but there was a noticeable lateness, readiness, or resource problem.	Files were not delivered on time to Google Classroom, the student was not prepared to work, or did not have the necessary resources, e.g. computer, charger, email, and password.

Name: _____		Date: _____		Group: 6° A B C
Teacher: Porfirio Rios		Score: ____ / 40pts		
mBot Condition Flowchart				
Criteria	9	7	5	2
Sensor condition	Includes one clear mBot sensor condition using if/then thinking.	Includes a sensor condition using if/then thinking, with only a minor issue in the sensor, value, or trigger.	Includes a condition, but the sensor, value, or trigger is partly unclear.	Condition is missing, not sensor-based, or not written as if/then logic.
True response	Shows what the robot should do when the condition is true.	Shows what the robot should do when the condition is true, with only a minor issue in the action or connection to the condition.	Shows a true response, but the action is incomplete or unclear.	True response is missing or does not connect to the condition.
False response	Shows what the robot should do when the condition is false.	Shows what the robot should do when the condition is false, with only a minor issue in the action or connection to the condition.	Shows a false response, but the action is incomplete or unclear.	False response is missing or does not connect to the condition.
Flowchart clarity	Flowchart is organized and includes one sentence explaining the robot behavior.	Flowchart is mostly organized and includes an explanation, with only minor clarity issues.	Flowchart can be followed but has weak organization or a partial explanation.	Flowchart is hard to follow, missing arrows/labels, or has no useful explanation.
Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password.	Files were delivered on time, with only one minor readiness or resource issue.	Files were submitted, but there was a noticeable lateness, readiness, or resource problem. Name: _____		Date: _____		Group: 6° A B C
Teacher: Porfirio Rios		Score: ____ / 40pts		
mBot STEM Challenge Project				
Criteria	9	7	5	2
Goal and success rule	Goal, success rule, and route/behavior are clear and realistic for the mBot.	Goal, success rule, and route/behavior are mostly clear, with only one minor missing or unclear detail.	Goal or route/behavior is partly unclear, incomplete, or hard to check.	Goal, success rule, or route/behavior is missing or not realistic for class testing.
Robot program/action	Demonstrates movement plus one output or sensor in a controlled mBot challenge.	Demonstrates movement plus one output or sensor, with only a minor issue in timing, connection, or setup.	Shows part of the challenge, but movement, output, or sensor evidence is incomplete or hard to verify.	Robot action is missing, not working, or does not include movement plus an output or sensor.
Testing/improvement	Records a test result and one clear improvement made after testing.	Records a test result and an improvement, with only minor detail missing.	Gives limited testing notes or an improvement that is unclear.	Testing evidence or improvement is missing.
Demo/readiness	Gives a short demo/explanation of the goal, robot action, output or sensor, test result, and improvement; readiness evidence is complete.	Explains most required parts and has readiness evidence, with only one minor detail missing.	Explanation or readiness evidence is partial or hard to check.	Explanation, reflection, or readiness evidence is missing or incomplete.
Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password.	Files were delivered on time, with only one minor readiness or resource issue.	Files were submitted, but there was a noticeable lateness, readiness, or resource problem.	Files were not delivered on time to Google Classroom, the student was not prepared to work, or did not have the necessary resources, e.g. computer, charger, email, and password.
