Robotics and Technology
2nd Trimester
Summative # 1
9th A & B

Name: _____ Date: _____

Teacher: Porfirio Rios Group: 9° A B Score: ____ / 40pts

Python and Data Vocabulary Table

Criteria	9	7	5	2
Required words	Includes all 10 required words.	One word is missing or unclear.	Several words are missing or unclear.	Most required words are missing.
Definitions	Definitions are accurate and student-friendly.	Most definitions are accurate; one or two need clarity.	Several definitions are incomplete or inaccurate.	Definitions are mostly missing or incorrect.
Illustrations	Each word has a clear supporting visual or code example.	Most visuals support the words.	Several visuals are missing or weakly connected.	Illustrations are mostly missing or unrelated.
Example sentences	Each word has a correct Python or data example sentence.	Most sentences use the words correctly.	Several sentences are incomplete, vague, or incorrect.	Example sentences are mostly missing or incorrect.
Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password.	Files were delivered on time, with only one minor readiness or resource issue.	Files were submitted, but there was a noticeable lateness, readiness, or resource problem.	Files were not delivered on time to Google Classroom, the student was not prepared to work, or did not have the necessary resources, e.g. computer, charger, email, and password.

Data Collection

Criteria	9	7	5	2
Bounded data question	Clear, measurable question with a specific class or school topic.	Measurable question, but limit, audience, or source needs detail.	Question is too broad or partly hard to collect safely.	Question is missing, unsafe, or not measurable.
Survey or measurement items	5 focused survey or measurement items, each with a clear unit or category.	Most items fit; one item, unit, or category is unclear.	Too few items, or several do not match the data question.	Items are mostly missing or do not collect useful data.
Collected data table	Required dataset is collected/entered in a table with clear headings, units, and categories.	Dataset is mostly complete; one entry, heading, unit, or category issue.	Dataset is incomplete or hard to check because the table is unclear.	No usable collected or entered data table is submitted.
Method and privacy boundaries	Collection method and privacy rule are clear, responsible, and followed.	Method/privacy are mostly clear; one detail is missing or not followed.	Method or privacy boundary is vague or hard to verify.	Method or privacy boundary is missing or unsafe.

Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password. Teacher: Porfirio Rios		Group: 9° A B		Score: ____ / 40pts
Chart and Interpretation Check				
Criteria	9	7	5	2
Chart creation	Creates one chart from the dataset with accurate data selection, labels, and title.	Chart is mostly accurate, with one unclear label, title, or data-selection issue.	Chart is present but has several accuracy, label, or readability issues.	Chart is missing or does not represent the dataset correctly.
Pattern and comparison	Writes one pattern sentence and one comparison sentence supported by the chart.	Both sentences are present, but one is vague or weakly supported.	One sentence is missing or several details do not match the chart.	Pattern and comparison evidence is mostly missing.
Outlier or limitation	Identifies one outlier or limitation accurately and connects it to the data.	Outlier/limitation is present, but explanation needs one clearer detail.	Outlier/limitation is vague, inaccurate, or weakly connected to the data.	Outlier or limitation is missing.
Conclusion	Writes one careful conclusion that matches the chart evidence.	Conclusion is present but too general or only partly evidence-based.	Conclusion is unclear, exaggerated, or weakly connected to the chart.	Conclusion is missing or not based on evidence.
Criteria	4	3	2	0
Punctuality, Readiness & Respect	Files were delivered on time to Google Classroom, the student was prepared to work, and had necessary resources, e.g. computer, charger, email, and password. Data Report Draft				
Criteria	9	7	5	2
Report structure	One-page draft includes title, question, chart, limitation, and recommendation.	Draft includes most required sections, with one missing or unclear section.	Draft has several missing or poorly organized required sections.	Draft is missing or cannot be checked as a report.
Evidence statements	Includes 3 evidence statements that clearly connect to the chart or data.	Includes evidence statements, with one vague or weakly connected statement.	Evidence statements are incomplete, unclear, or not supported by the chart.	Evidence statements are mostly missing.
Limitation and recommendation	Limitation and recommendation are realistic and match the data evidence.	Both are present, but one needs a clearer connection to the data.	One part is missing or the ideas are too general to support the report.	Limitation and recommendation are mostly missing.
Readable design	Report is organized, readable, and uses layout choices that help the data story.	Report is understandable, with minor layout or readability issues.	Report is hard to follow because of organization or design problems.	Report is disorganized or not readable enough to grade.
